## DISCUSSION QUESTION:

**Note to Student:** In each session we've discussed the importance of why you need to be educated about this issue and the issues which surround it. The obvious reason is that the average age a person is first trafficked is 13, but there's another reason we have directed our mission toward young people - influence.

What does the word "influence" mean to you, and do you feel accountable to use your influence wisely?

**DISCUSSION QUESTION:**

**Note to Student:** Like we said above, we believe this generation has not only the ability to affect change in the world, but also the desire to affect change in the world.

How do you see yourself and your peers using your platforms to speak out, protect, and stand up for the issues that are afflicting our culture? How do you think that making a personal decision that “it stops with you” can have a great impact on society?
